Do you think that learning workers' compensation law is never fun, interesting or easy? Well think again!! This year marks the 18th year of Hanna & Brophy's Workers' Comp Bingo program, created for and presented at the PARMA annual conference. This program is a PARMA mainstay because it is fun, and it presents the newest, most important cases in a context that is easy to understand and easy to learn. Plus, all participants get to play Bingo and win prizes!!

The handout for Comp Bingo 2018 will be provided at the presentation after completion of the program. The handout is not provided in advance because it has all of the Bingo questions and answers. Attend this presentation and the handout will be provided at the end of the program, with a summary of each case, organized by topic and area of workers' compensation law.
